

Hush Lullaby

By Koby Lee

Verse 1: The cradle rocks and you're awake
Don't worry with me the bough won't break
You're safe and sound lucky as can be
You can be anything you dream

Chorus: Hush little baby don't you cry
Mumma's gonna sing you a lullaby
Hush little baby don't you cry
Mumma's gonna sing you a lullaby

Verse 2: You twinkle in my sky just like a star
So happy to be wherever you are
Your troubles melt like lemon drops
When I kiss your face my heart just stops

Chorus x 1

Bridge: La la la la la la la la. La la la la la la la la
La la la la la la la la. La la la la la la la la

Chorus x 2
